

Tip Tuesday

Change Your Gmail Theme

Just like Chrome, you can change your Gmail theme!

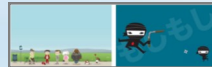

1. From your Gmail, in the upper-right corner, click the Settings wheel  and choose *Themes*.

2. Scroll through the options.

⇒ Custom themes by Google users are at the top. Click the last image in this section, *More themes*, to view 100s more.

⇒ Classic themes (including solid colors) by Google follow.

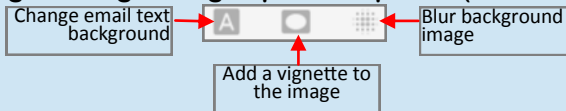

⇒ Choose “My Photos” (bottom-right) to pick one of your own pictures.

3. Click on an image and notice your Gmail background changes to show you what it looks like before you click Save.

4. Clicking an image brings up more options (at the bottom):

Here's a treat: some themes (like Ocean, Tree & Random) change throughout the day based on your location, weather, and/or the time of day! It's pretty awesome!
