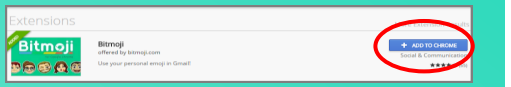
Create YOUR OWN Emojis

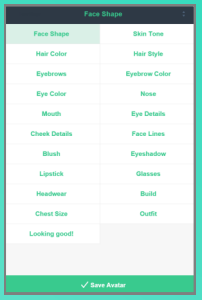
Use the Bitmoji Extension to personalize your Gmail

1. Go to the Chrome Web-store and search for "Bitmoji." Click *+Add to Chrome* to install the extension.



2. Click *Allow* and the Bitmoji website will open. (Notice, an icon appears at the top right next to the address bar.)

3. From here, you will create your emoji. Click through the many options to personalize your Bitmoji. When you're finished, click *Save Avatar*.



4. Back at Bitmoji's home, click *Open Bitmoji for Gmail Now*. Open Bitmoji for Gmail Now

5. Now, when you compose an email, you will have the Bitmoji icon at the bottom. Go ahead; use it!!

This is a fun thing for you...in addition, you could have students create a Bitmoji for their favorite character, scientist, mathematician, historical figure, politician, world leader, author, and so on, to add a fun twist to your lesson!
