## Open All Your Favorite Webpages With One Click

*When you open Chrome (the Internet), you can have pages  
you choose automatically open!*

1. Launch Chrome 
2. Open the pages you view often (like Gradebook, Gmail, Drive, and Calendar).
3. In the upper-right corner, click on the 3 bars (☰) and choose “*Settings.*”
4. Under “On startup,” choose “*Open a specific page or set of pages*” and then click “*Set pages.*”

Hint: Click here to open more tabs

2 Make sure each is in its own tab

3 Settings

4 On startup

5 Use current pages

5. Click “Use current pages” and click “OK.”

That’s it! The next time you open Chrome, these pages will automatically open ~ saving you time!  
*Start saving time and give it a try today!*
