****Note:** Click "Browse Wheels" for pre-made options!**

Classroom ideas: ALL SUBJECTS: student names, vocabulary lists, prizes/points for competition, create groups. MATH: math problems, steps in a process. ELAR: assign parts, find example of chosen literary device in text. SCIENCE: life cycle, moon phases (predict what is next). SOCIAL STUDIES: students list date with chosen event, states/capitols, articles of the constitution. *Endless Possibilities!*

The screenshot shows the 'Wheel Builder' interface. At the top, there's a text input field for 'Choices (enter up to 100 choices)' and a 'Paste List' button. Below this are several text input fields containing names: 'Susie', 'Sally', 'Johnny', 'Jimmy', and 'Billie'. A yellow arrow points to the 'Paste List' button with the text 'Click Paste List to copy/paste'. A red starburst contains the text '2 OPTIONS for entering'. A yellow arrow points to the text input fields with the text 'Manually enter names'. Below the names are 'Add Choice...' and 'Clear Choices' buttons. Further down, there's an 'Advanced Options' section with several settings: 'Remove choice after it is landed on' (checked), 'Color Theme' (Default), 'Seconds to Spin' (5), 'Wheel Diameter (pixels) (100-3000)' (a square icon), 'Custom Colors (hex comma separated):' (a text input field), 'Text Colors (hex):' (a text input field), and 'Weights (comma separated):' (a text input field). Red arrows point from these settings to descriptive text on the right: 'Remove choice after chosen', 'Theme', 'Time to spin', 'Wheel Size', 'Custom Colors', 'Text Colors', and 'Size of each piece'.
